PRIMA LIGHT

Prima light is a rice texture fabric. 100% poly with amazing stretch properties and soft touch against your skin. Medium weight and rich depth. Rice texturing allows improved breathability and moisture wicking effectiveness.

INTERLOCK

Interlock is a super light weight fabric. 100% poly with extreme moisture wicking properties and air light feel.

KALADO

Kalado is a light weight 100% poly composition fabric with small perforated punched areas. This allows for use of our **THERMACOOL** technology. This gives any golfer the utmost in hot weather body temperature management to help perform their best.

ACTIVE KNIT FLEECE

An optional cold weather fabric we offer which has a built in fleece liner texture that is super soft against the skin and locks in body heat on those cold days. 100% poly in a heavier weighted fabric and tighter knit to keep trap heat.

When we created Hero Sportswear's golf line we relied upon and utilized our years of experience within the golf industry. Our golf apparel is designed by golfers, for golfers.

With over two decades of golf operations and pro shop sales under our belt. Combined with a love for the sport and a deep understanding of the Canadian golf season and climate challenges. We were able to create an apparel line that is functional, modern and geared towards performance.

We listened to what the everyday golfer wanted in their golf wear. Our goal was to develop Hero Golf on the golf courses and not in a board room meeting. Out on the fairways and in the bunkers. On sunny days and in the rain, with real amateurs! Our apparel has been created to capture both the new modern trends sweeping the sport, as well as some of the traditional and classic design elements that remain staples in golf wear.

Our mission when we created Hero Golf, was to build stylish high-performance golf wear available at a reasonable price without comprising on quality. We have thoughtfully and purposely selected fabrics and patterns that not only offer functionality but also push the boundaries of creative and fun fashion. Hero Golf allows the golfer to express their personality on the course while still providing maximum comfort and durability.

Hero Golf is designed and developed in Ontario. We are avid supporters of innovation and are consistently on the hunt for new fabrics and trends. Our European factories produce high end quality garments while exhibiting and abiding by eco and humanitarian standards.

Hero Golf is proudly Canadian, and we continue to support the game as club members, daily fee players and trunk slammers alike. Hero Golf aims to represent the voice of the everyday golfers's needs and strives to bring the latest and greatest trends to the Canadian golf market.
